

Lanesboro Residents,

Thank you for choosing LRS as your new service provider as of 5/1/22. We have a fairly short time line to make this transition as smooth as possible. We will be providing both weekly trash and recycling services. **The new service day will be on Wednesday** and as your current provider, we will be in town around 6 AM. **All containers need to be away from objects and containers separated by 3 feet to ensure our driver can safely service your containers. If your container is serviced in an alley, the trash needs to be on the west or north side of alley and the recycling on the opposite side of the alley (east or south side).** This will allow us to travel up each alley only two times to help prevent wear and tear on your city's alleys. If containers are not placed on the correct side, they will not be serviced.

Your current provider will be removing containers on April 25th after they service them.

Anyone that calls to set up service before 4/21/22 will receive their containers on Friday April 22nd. Anyone that calls after April 21st will receive their containers the following week. We will work on getting containers to all residents as quickly as possible.

Please note that LRS acquired Sunshine Sanitation on March 1st so some of the equipment you will see has not been fully rebranded at this time. When you call to set up service you will have the following options:

65 gallon trash container with either 65 or 95 gallon recycling container: \$64.64 per quarter
95 gallon trash container with either 65 or 95 gallon recycling container: \$68.07 per quarter

Bag service and containers for senior citizens will be available upon request.

We are requiring prepayment for all customers either via check or credit card for a minimum of the quarter. We do have annual payments that are available.

To call and set up service please contact us at 507-285-5550 and let them know you are a Lanesboro resident. You can also email at rochestermn@lrsrecycles.com and we can reach out to you or get your information via email. We look forward to servicing your community the next five years.

Thank you,

LRS Management
