- ★ **Fall 2022-Fall 2023:** work on the project continued

“This Chill-Inn Lanesboro group started in early 2022, after local businesses noticed a need from visitors and residents to better communicate what we had to offer in the winter, even if it is limited as compared to our warmer months. This need evolved into thinking about investigating more opportunities for winter tourism, and we are thrilled the Blandin Foundation Rural Leadership Boost Grant will allow us to work together to thoroughly explore the feasibility and ideas around winter tourism in Lanesboro,” said Alison Leathers, chair of the Lanesboro Businesses Promotion Group and local innkeeper.

Conclusion --- Take some first steps that put Lanesboro's creative spirit to work.

Getting started does not require perfection, just an entrepreneurial spirit and a willingness to have some fun as a community. Start by identifying achievable changes that community members can get excited about. Even a moderate increase in visitor stays can make a meaningful economic impact, and a few new activities can provide some new vibrancy for residents in the winter months. So, try some new things and build on them over time. Here are some ideas for getting started.

- ⇒ Have community-level conversations to discover what businesses, outfitters, residents, and others are excited about. Lean into those ideas this winter.
- ⇒ Identify target market groups businesses are already connected to and re-develop marketing materials to meet the needs of group organizers. List existing customer relationships that could be spun into group tourism experiences this winter. Use these relationships to get feedback about ideas that you are developing.
- ⇒ Recruit a team that can use initial discussions to generate a three-day itinerary for group organizers and other visitors to consider. Collaborate with the Visitors' Bureau and Chambers to use their calendars and other outreach materials.
- ⇒ Put out a call to local lodging businesses to inventory indoor "common spaces." Start with low-hanging fruit for willing lodgers with space and create a first draft of marketing materials that pitches those common spaces to groups.
- ⇒ Find easy wins regarding photography, marketing, and media relationships that expand shoppers' views of Lanesboro's appearance in all seasons.
- ⇒ Empower your local talent to create new ideas for Lanesboro experiences. Consider a small grants program to encourage local talent to create winter experiences for groups through dining, indoor gatherings, and outdoor adventures.
- ⇒ Partner with economic development entities that are focused on entrepreneurship. Use those resources to nurture local ideas that the community is excited about.
- ⇒ Tap locals or professional photographers to take pictures of Lanesboro this winter.
- ⇒ Leverage your media relationships to create fun stories as new ideas are implemented.
